

Wylie McGraw

Is a former Star Pitcher, Competitive Bull Rider, and 3-Tour Combat Veteran.

It was through those intense experiences that he discovered his crazy superpower of being able to expose blind spots, erupt & eradicate stress, and fully unleash the untapped potential of high achievers.

He's the founder of *Radical Performance Acceleration* and for well over a decade now he's been behind-the-scenes doing life-altering work with powerful CEOs, Entrepreneurs, Leaders, and Public Figures accelerating their performance both personally and professionally.

His work is the proverbial "Navy SEAL training" equivalent to high-performance and leadership development – pushing even the elite beyond their limits so they not only hit their peak but sustain it.

Wylie's formal title is *Performance Accelerator*.

He's been named a "secret weapon" by some of the most influential leaders across industries from Wall St., Hollywood, Professional Sports, Fortune 500 companies, Personal Development, and everything in between. His work is about giving an elite edge to high achieving individuals while ending their cycle of stress, sacrifice, and suffering that's unfortunately associated when reaching their levels of accomplishment and success.

When Wylie's not traveling the country to meet his clients, this family man enjoys skydiving, mountain top sunsets, and sipping on an occasional 18-year-old single malt scotch while pondering the philosophies of life, the cosmos, and beyond.

- The life imbalances you overlook and ignore are killing your performance.
- To thrive in any situation, stress must be erupted and eradicated.
- Experience your highest levels of success by confronting the realities preventing your performance from accelerating in the first place.
- To go beyond your limits, you will always need an outside force to do so.
- Achieve self-mastery by being pushed beyond the comforts responsible for your perceived limits.
- You need to "embrace the suck" and find focus amidst any chaos.
- You need the process of eruption to transform your stress from a detriment into an asset.
- Leaders, to reach full potential, need to have the stress that plagues them erupted so they can see it, face it, and conquer it head on.
